Profile

CTO with over 15 years of experience designing SaaS platforms, leading technical teams and steering cloud & AI architectures. I operate at the crossroads of product strategy, technical performance and user experience, managing teams of 10+ developers and architectures supporting X million users.

Skills

- * Cloud architecture (AWS, Kubernetes, CI/CD, Scaleway)
- * Technical leadership & team management
- * Full-Stack development: Node.js, React, Python
- * AI integration (LLM, AWS Bedrock, Langchain)
- * User experience (UX/UI, mobile, responsive)
- * CI/CD, DevOps, monitoring, multi-instance environments
- * Product strategy, technical documentation, agile methods

Languages

- * French (native)
- * English (professional)

Notable projects

- * **AppKiosk** — Multi-event kiosk app (Leni, 2019–2022)
Mobile/web kiosk platform deployed as custom apps for multiple clients.
Full architecture (front, back, CI/CD), fullstack development, UX, offline mode, scaling, multi-instance deployment via backoffice. Managed a team of 10 developers, supporting 500+ simultaneous events.
- * **SARAE** — Customer Platform and CRM (2024–...)
Cloud-native customer management system integrating CRM, call center and AI.
AWS (Amplify, Lambda, Connect, Bedrock), HubSpot, journey automation, call analytics AI (sentiment, performance)
1000+ active users, 30% reduction in call processing time
- * **DigitecPharma** — Consumer mobile app for multiple pharmacies —

Experience

- * DSI — SARAE (2024-present)
 - * Design of the customer information system (AWS, HubSpot, Connect, Bedrock AI)
 - * Process automation and booking platform
 - * Development of call analysis AI system
- * CTO — EXALGO (2022-2023)
 - * Development of a cloud-native AI chatbot (Langchain, Kubernetes)
 - * Design of the LLM chain, cloud integration (Scaleway, ArgoCD)
 - * Performance and latency optimization
- * CTO — Leni (2019-2022)
 - * Led R&D on several SaaS products (Mobile-Spot, Youslide, EasyPPT) - 3 successful product launches
 - * Team management (10 devs), product strategy, agile methods
 - * Software architecture, CI/CD, quality, documentation
- * Lead dev & Project director — Freelance (2007-2019)
 - * Design and development of web & mobile apps, serious games and interactive platforms
 - * Coordination of multidisciplinary teams (UX/UI, dev, motion design)
 - * Creation of videos, animations and web campaigns
 - * Bespoke projects from client brief to production
